Height limits

The following limits apply in all cases, where technically possible:

Stand construction: +6.00m above finished floor level
Advertising structures/banners: +7.00m above finished floor level
Suspended lighting: +7.00m above finished floor level

Suspension systems / Rigging

Items may only be suspended by arrangement with the department in charge of technical matters.

Floor of lightweight hall

The floor is made of wooden panels with a load-bearing capacity of 300kg/m².

Important deadlines!

19.07.2024: Orders power supply, internet, suspension systems

Orders for power/Internet/Rigging installations must have been placed with the Hamburg Messe & Congress GmbH exhibitor services team (Ausstellerservice) **by 19.07.2024**.

Please place your orders through our Online Service Center <http://hamburg-messe.de/osc/>

Installations of the above supply infrastructures will no longer be possible after 19.07.2024.

There is no compressed air supply facility. Water installations are not possible.

Please **submit all booths** to the department in charge of technical matters for checking also not later than **19.07.2024**.

23.08.2024: Heavy exhibits

Exhibits weighing more than 300kg/m² may only be brought in by arrangement and only at the start of the hall construction work.

Heavy exhibits must be delivered to HMC 23.08.2024.

Please liaise with the department in charge of technical matters (contact details below).

Please also note the following:

- Items may not be stuck on the walls.
- No forklift trucks are allowed in the hangar.

Please ask if you need help or advice!

Dept. Production & Operations – Event Production, email: ops@hamburg-messe.de
The Technical Guidelines of Hamburg Messe & Congress GmbH apply.
